

Pollution Prevention by Design: Leaner is Greener

Will Hitchcock
Environmental Engineer
Noramco, Inc.

Will Hitchcock is an Environmental Engineer working for Noramco, Inc. in Wilmington, Delaware. His primary responsibilities include managing the site's hazardous waste program, ensuring compliance with the site's Title V air permit, and leading the facility's Emergency Response Team. Will started working for Noramco in 2008 after earning his Bachelor's Degree in Chemistry from Penn State University, and transitioned into the Environmental Department in 2013 after receiving his Master's Degree in Environmental Engineering from Drexel University.

In December 2013, Will accepted an award from the Society of Chemical Manufacturers & Affiliates (SOCMA) on behalf of Noramco for the Company's recent improvements in Environmental Stewardship and Sustainability.
