

Government cuts to Medicare rebates from 19 January 2015

You pay more

The Government pays less

The Government has cut your Medicare rebate by \$20 for some of our services.

We may have to charge you more for your care.

The quality of the service we provide has not changed.

The Government has decided to make this \$20 cut. Please don't blame your GP.

Let Government know that you are unhappy with this decision.
