About Goldman Sachs *10,000 Small Businesses*

Goldman Sachs *10,000 Small Businesses* is a \$500 million investment to help small businesses in the United States create jobs and economic growth by providing entrepreneurs with a practical business education, access to capital and business support services. The program is based on the broadly held view of leading experts that greater access to this combination of education, capital and support services best addresses barriers to growth.

Long Beach City College is the Southern California Regional Center for the Goldman Sachs *10,000 Small Businesses* program. Small business owners that are selected for the program will receive a scholarship to attend the business and management education program, and get one-on-one sessions from dedicated business professionals to help the entrepreneur develop a tailored business growth plan. Classes held at: Long Beach City College and Los Angeles City College. Please contact us for additional information regarding the program and an application.
