

# Pennies for Patients- Penny War 2015

There will be 4 jars set up in the quad: one jar for each grade: freshmen, sophomores, juniors and seniors.

The goal of each class is to have the most number of points in their jar. Points are gained by putting copper pennies in the jars.

Points can be taken away by putting silver coins (quarters, dimes, nickels) in the jars.

The point values are equal to the value of the coin. -

**Copper Pennies: +1 points**

**Silver Nickels: -5 points**

**Silver Dimes: -10 points**

**Silver Quarters: -25 points**

*Bills are accepted as donation but do not have value in the competition.*

The best technique to win is to put as many pennies in your own jar as possible and put silver coins in the other classes' jars.

Any student or staff member may only **PLACE** coins in any jar (can't remove any coins).

The class with the highest number of points at the end of the drive will win spirit points, a special prize and bragging rights. :)

All of the money will be donated to Pennies for Patients, an organization to raise funds for leukemia and other blood cancers.

**Last year Woodside raised \$1000!**  
**The winning class was the class of**  
**2016**
